

STUDY: Montrealers and plastic shopping bags

Besides the first use what other ways do you use plastic bags?

(Since multiple answers were permitted, the total exceeds 100%)

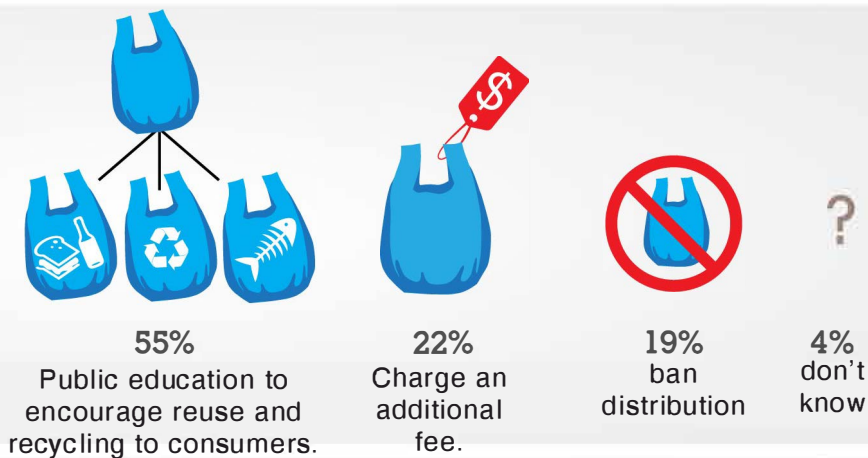

If the City of Montreal prohibited retail stores from giving out plastic bags to consumers...

Montrealers would start buying heavier plastic bags in order to manage household waste.

What would be the best solution to reduce the number of plastic bags in the city of Montreal?

How important is it for you to continue to have the option to reduce, reuse and recycle plastic grocery bags as opposed to banning them?

CROP was mandated by the (CPIA) Canadian Plastics industry Association, to conduct a study among residents of the city of Montreal with regard to their consumption habits and use of plastic shopping bags.

STUDY POPULATION:
A total of 400 residents of the city of Montreal 18 and older were contacted.

DATA COLLECTION:
Data was collected May 8 - 13, 2015
Collection mode: web poll

WEIGHTING:
The survey data is weighted to reflect the distribution of the population by age, sex and main language of respondents.
